

RISHIRANA

Frontend Developer | Software Development Student

Mumbai, India · rishirana463@gmail.com · +91-8286783460 · LinkedIn · GitHub

PROFESSIONAL SUMMARY

Frontend Developer and final-year Software Development student with a track record of shipping 5 React-powered applications. Focused on responsive UI, reusable component architecture, and seamless UX using React.js, TypeScript, Tailwind CSS, and JavaScript (ES6+). Comfortable consuming REST APIs, translating designs into pixel-perfect layouts, and optimising for performance. Seeking a Frontend Developer internship to build exceptional interfaces in a collaborative team.

TECHNICAL SKILLS

Core Stack: JavaScript (ES6+) | React.js | TypeScript | HTML5 | CSS3 | Tailwind CSS | Node.js | Express.js | MongoDB

Languages: JavaScript | TypeScript | Python | C

Tools: Git | GitHub | VS Code | REST APIs | Mongoose | RBAC | MVC Architecture | Canvas API

PROJECTS

College Complaint Management System (CCMS) - React | Node.js | Express.js | MongoDB | RBAC | Mar 2025

- Built a full-stack MERN complaint management platform supporting 3 distinct user roles (student, faculty, admin) with isolated dashboards and permission scopes via RBAC.
- Implemented real-time ticket tracking with 4 status stages (Open, In Review, Resolved, Closed), reducing complaint resolution ambiguity.
- Designed 8+ RESTful API endpoints with Express.js and structured MongoDB schemas using Mongoose; applied MVC architecture for clean separation of concerns.

Neighborhood Alert - Civic Issue Reporting Platform - TypeScript | React | Node.js | Map Integration | Apr 2025

- Engineered a civic-tech platform enabling residents to report, geopin, and track local community issues across 2 core user flows: reporter and viewer.
- Integrated interactive map features for precise geolocation pinning, reducing issue location ambiguity by an estimated 60% for administrators.
- Added evidence upload (images/files), upvoting, and threaded tracking; chose TypeScript for strict typing and long-term scalability.

Client-Side Image Compressor - React | Canvas API | JavaScript | 2025

- Built a browser-only image compression tool using the Canvas API - no server uploads, no dependencies, instant compression with adjustable quality slider.
- Supports drag-and-drop, live before/after size comparison, and one-click download; achieves sub-second processing for images up to 10MB.
- Live: <https://image-compressor-converter-bay.vercel.app/>

Weather Application - JavaScript | REST API | HTML | CSS | Mar 2025

- Built a real-time weather app consuming a public REST API, delivering live city weather data within 500ms average response time with a responsive card-based UI across 3 device breakpoints.

EXPERIENCE

Tech Fest Volunteer Coordinator 2025 Thakur College of Engineering & Technology · Mumbai

- Coordinated registration and check-in for 100+ attendees at the annual Tech Fest, managing real-time logistics under time pressure.
- Collaborated with a team of 8 volunteers to ensure smooth event operations across multiple concurrent sessions.

EDUCATION

B.Voc in Software Development 2024 - Present

Thakur College of Engineering & Technology · Mumbai, India

ACHIEVEMENTS & EXTRACURRICULARS

- Active member of the college Coding Club - participates in peer workshops and collaborative problem-solving sessions.
- Maintained 5 public GitHub repositories with consistent commit history, demonstrating discipline and a shipping mindset.
- Completed MS Excel & Google Docs certifications.
